

Nicholas J. Caffrey

Software Developer

Leawood, KS 66209 | m (913) 999-2099 | nick.caffrey@icloud.com |
<https://www.linkedin.com/in/nicholascaffrey/> | <https://github.com/naffrey>

PROFESSIONAL SUMMARY

Business major turned into a detailed-oriented full stack developer capable of providing an aesthetically pleasing user experience for all audiences, with a drive to exceed expectations to produce the highest level of quality results.

SKILLS

Programming Languages: HTML, CSS, JavaScript, React, Node, Express, Mongoose, Python, Django,

Additional Skills: Wordpress, Adobe Creative Suite, Slack, Teams, Microsoft Office Products.

PROJECTS

<https://naffrey.github.io/FlashCards/> - For this project, I used HTML, CSS, and Javascript to form a self-scoring flashcard application to be used for studying JavaScript methods.

<https://614ca2f8cc640b009533a310--tender-elion-f6b323.netlify.app/> - I created a database of saltwater fish that present a user with information on each one that they might be interested in learning about by using React, CSS, & implementation of a government-created API.

<https://eloquent-saha-0c9194.netlify.app/> - This project was developed with two other developers by adding additional functionality to a previous project. We added a functional to-do list that a user can upload tasks that they need to complete by the level of urgency. For this implementation, we utilized our skills in React, Javascript, CSS, Node, Express, & Mongoose.

<https://github.com/WeatherTunes/FrontEnd> - WeatherTunes is an application developed using React, Javascript, CSS that will base the user's choice of music based on the type of mood that they are feeling. The user is also present with current weather conditions. As this is designed to be a functional iPhone application, It is currently in the progress of being developed to be deployed on the App Store.

EXPERIENCE

GENERAL ASSEMBLY – Remote

08/2021 - Current

Software Engineering Immersive Fellow

- 500+ hours in learning software engineering languages and techniques.

FRONTIER ANGLERS - Dillon, MT

07/2017 - 9/2019

Shop Manager

- Manage website content, online sales, & inventory to provide customers with information
- Manage Social Media pages to increase customer base throughout the United States to develop more guided fishing trips locally and internationally.
